

# Employer Wellness Solutions

Whether you need full-service biometric screening management or customizable a la carte add-ons to a current program, **CoreMedica** has a solution.

## Biometric Screenings

Biometric Screening services, fingerstick or venipuncture, are offered nationally at a worksite or in the privacy of the home.

CoreMedica works closely with our partners to design, implement and manage biometric screening solutions that are efficient, cost-effective and best fit their needs.

### + Event Management

Client focused, scheduling, coordination, fulfillment and staff management.

### + On-Site Screenings

Nationwide, fingerstick, venipuncture, all group sizes, vetted & qualified staff.

### + In-Home Screenings

Preferred scheduling, fingerstick, venipuncture, biometric measurements.

### + Home & Physician Tests

Complete kit, printed & video instructions, shipped direct to member.

## Specimen Analysis

Our specimen analysis capabilities span across multiple collection modalities or methods, fingerstick or venipuncture.

Specimens, from all across the country, are processed at our single site laboratory daily. Our centralization allows for industry leading turn around time, consistency and quality.

### + Dry Blood Spot

Fast, easy, and needle-free collection that requires only 4 drops of blood.

### + Microtube

Fingerstick collection with lab analysis previously only available with Venipuncture.

### + Venipuncture

Full expanded testing panels for any wellness program.

### + Point of Care

Instant on-site results of Lipids and Glucose from fingerstick collection.

### + iFOBT Toxicology

FDA approved, CLIA waived, self contained fecal occult blood test.

### Data Integration

CoreMedica provides flexible and comprehensive integration options that range from easy-to-use web-based applications to sophisticated integrated workflows.

CoreMedica can align with any connectivity or information technology solution.

- + Custom Integration**  
Secure Web Portal or Customized Delivery in multiple formats.
- + Partner & Participant Lab Portal**  
Batch or individual lab result access through CoreMedica's platforms.
- + Eligibility Upload**  
Enhanced data integrity and accuracy utilizing scrub and matching logic.
- + Electronic Ordering**  
Dedicated secure platforms available at the client and member levels

### Supply Fulfillment

CoreMedica provides a comprehensive, centralized supply chain platform for the various industries we serve.

From custom blood collection kits to wellness screening event supplies, or dried blood to venous collection, we have you covered - When you want it, Where you need it.

- + Centralized**  
Managed and maintained from a single location in the Central US.
- + Quality Controlled**  
Scalable workflows and processes that are measured and monitored.
- + Flexible Workflows**  
Integration with our partners and their processes for maximum impact.
- + Order Tracking**  
Outbound and Inbound shipment tracking and reporting available.
- + Kitting & Warehousing**  
Customized kit creation and storage for volumes small and large.

### Accreditations for Scientific Excellence

State-of-the-art robotic laboratory instrumentation under strict quality standards to ensure accurate and reliable results.
